

## BE A VOLUNTEER AT BRAIN BAR BUDAPEST!

### ABOUT BBB

In **Budapest on 4-6 June**, a unique festival will explore the technological and philosophical boundaries between man and machine. The only festival of its kind in Europe, Brain Bar Budapest picks up where other international techfests leave off. It goes beyond the innovation to ask what it all means for us humans? Will tech have only positive impacts on our lives and societies or is the effect more malign?

#### Where should the limits and boundaries be between tech and humanity?

At Brain Bar Budapest, these ethical dilemmas are starting points rather than afterthoughts. In a format that puts technologists against philosophers, politicians versus social entrepreneurs, influencers versus disruptors, these questions form the basis of **three days of lively debate, art and music in stunning venues** in the heart of Budapest.

### 5 REASONS TO VOLUNTEER AT BRAIN BAR BUDAPEST

- Get real experience organizing an international festival
- Expand your professional network
- Take part in the daily events for half a day before/after shift
- Let fascinating figures like Richard Florida, Sara Davidson or Daniel Epstein inspire you
- Bring an entirely unique breed of festival to life as part of a great team

### APPLY IF

- you have excellent knowledge of English
- you love being in the midst of things
- you're adventurous and proactive
- you want to get to know new people
- you want to drive the success of Central Europe's most inspiring event
- you're excited to see great minds debate on the biggest issues of our future

Apply by 10 May: [brainbarbudapest.hu/volunteer-at-brain-bar-budapest](https://brainbarbudapest.hu/volunteer-at-brain-bar-budapest)
